

Title: Polar Bears in Trouble

Nouns	
1. mammal	emlős
2. fur	szőr (állati); bunda
3. blubber	zsír
4. season	évszak
5. food chain	tápláléklánc
6. ice	jég
7. seal	fóka
8. global warming	globális felmelegedés
9. carnivore	húsevő
10. coast	tengerpart
11. bay	öböl
Verbs	
12. to melt	elolvad
13. to hunt	vadászik
14. to lose	elveszít
Adjectives	
15. freezing cold	jéghideg
16. thick	vastag
17. frozen	fagyott
18. arctic	(északi/déli) sarki
Expressions	
19. to have a bite to eat	eszik egy falatot
20. despite the cold	a hideg ellenére
21. it is hard to imagine	nehéz elképzelni
Summary	
<p>As a keystone species, polar bears are pretty good indicators of the health of the Arctic environment. Every year on the western Hudson Bay in Canada, polar bears await the freezing of the Bay to begin their hunting season. And with global warming, the Bay has been freezing later and thawing earlier and earlier every year, making some people nervous about the future of polar bears in the Arctic.</p>	

Title: Saving tha Pandas

Nouns	
1. cub	kölyök (állat)
2. panda	panda
3. feeling	érzés
4. illness	betegség

22. to have lots of energy	sok energiájuk van
23. the gorillas spend most of their time eating	a gorillák legtöbb idejüket evéssel töltik
Summary	
<p>Africa's mountain gorilla population has been on the decline for decades. But now, some good news: that decline appears to have stopped and the numbers could even be going up slightly. It's an encouraging development due in large part, surprisingly, to 'tourism.' Tourists pay big-bucks to see "the gorillas in the mist," and that's helping to fund conservation efforts.</p>
